

Dorn M. Moore

415 Second Avenue, Baraboo, WI 53913
dorn@savingcranes.org 608-448-1604

EXECUTIVE SUMMARY:

Seasoned technical project leader with 20 years of experience. Passion for bridging technology barriers and finding practical solutions for conservation. Special expertise in the use of geospatial technologies to foster environmental conservation.

EDUCATION:

University Of Wisconsin, Madison, WI
M.S. GIS and Web Mapping – in process (planned 2018)

The University of Arizona, Tucson, AZ
M.A Geography and Regional Development – 1998

Beloit College, Beloit, WI
B.A. Anthropology & Spanish – 1993

PROFESSIONAL EXPERIENCE:

International Crane Foundation, April 2013 – Present

GIS & Information Services Manager

- Provide guidance and strategy for the use of geospatial tools across the organization
- Manage and maintain several key research databases
- Responsible for managing the organizational use of technology including managing the contract relationship with outsourced helpdesk services.

Black Squirrel Technologies, October 2009 – April 2013

Owner/Principal

- Handle all aspects of managing a one-person IT support business
- Build a strong client base of local businesses and non-profit organizations

The Baldwin Group, October 2006 – September 2009

Spatial Analyst on contract to NOAA Coastal Services Center

- Support the human dimensions program with initial concept and design of easy to understand geospatial products for coastal land managers
- Provide training and support for conservation partners in the use of geospatial tools
- Project Manager for broad scale, multi-partner efforts

International Crane Foundation, March 1999 – October 2006

GIS and Remote Sensing Analyst

- Develop and maintain several large research databases
- Spatial analysis support for projects in North America and China
- Development of a 40-year land cover delineation and change analysis of the Zambezi Delta

TECHNICAL TRAINING:

- Geospatial Database Design and Development, UW
- GIS and Spatial Analysis, UW
- Introduction to ESRI GeoDatabases, SCGIS
- Advanced CommunityViz Applications, NOAA
- Coastal Inundation Mapping, NOAA
- GIS Tools for Strategic Conservation Planning, NOAA
- Team Processes and Facilitation, NOAA
- Coastal Applications for ArcGIS, NOAA

SOFTWARE AND SYSTEM EXPERTISE:

- Adobe Illustrator
- Adobe Photoshop
- Avenza MAPublisher
- Avenza Geographic Imager
- ESRI ArcGIS 10.5 Suite of GIS software tools
- Microsoft Office Suite
- PostgreSQL Database administration (with PostGIS)
- Python programming language

PROFESSIONAL AFFILIATIONS:

- Society for Conservation GIS (SCGIS)
- North American Cartographic Information Society (NACIS)
